

# Rath Consolidator Phone Features:

- Up to 10 phones can share 1 phone line, reducing costs and freeing up system assets
- No extra equipment required – Rath's Consolidator is a built in feature
- An operator can choose to communicate with a single phone, multi-phones (Conference Call Mode) or broadcast a message to all the phones (Paging Mode) by simply using the \* and # keys
- All Modes can be accessed and toggled between without the operator having to hang up the call
- A programmed message can be used to identify each phone
- Rath Consolidator feature works in a VOIP system or a traditional PBX
- Listen in on all 10 Emergency phones
